### Featured Presenters

#### Mike Anderson

*"Positioning Yourself in the Collision Repair Industry"* is Mike Anderson's program at the AASPI annual meeting.

In this session Mike Anderson of Collision Advice will present what the future looks like for Collision Repairers and how to WIN! This session will touch on but is not limited to the following:

- ▶ How Telematics and Connected Vehicles will impact the Damage Analysis Process
- ▶ How Telematics and Connected Vehicles will impact FNOL and more importantly WHEN it will happen!
- ▶ 36 % of all consumers want your services outside of normal business hours! What should you do to prepare!
- ▶ 70 % of all claims are predicted to be handled via photo or video re inspection by 2020! What should you do to prepare!
- ▶ An overview of Collision Advice's Who Pays for What Surveys! as well as an update on OEM Certifications
- ▶ Much more!!!

#### Eric Newell

*"Why is Post-Repair Calibration So Important?"*

Eric Newell, asTech Market Area Manager for Illinois Indiana and Ohio, will show us why it is vital that repair facilities understand

which systems might be impacted by the repair process. Calibrating the ADAS is key to a properly and safely functioning car.

Prior to joining the asTech team, Eric was Chief Operating Officer of a 6 shop MSO in Northwest Indiana. He has spoken at many national events including Akzo National Auto Performance Group groups and SEMA.
